To whom it may concern

It is a great pleasure to have an opportunity to write of our very pleasant experience with Debbie Fourie from Tiny Bubbles Swimming School with swimming lessons for my son.

Debbie has the ability to differentiate the widely separated skill levels of our young swimmers and tailor the lessons accordingly. This is very important to keep them progressing even though long breaks in lessons (such as our vacations and Christmas).

Debbie is also able to accommodate a wide range of learning abilities. She obviously is very experienced in instruction to be able to bring a variety of teaching techniques to the lessons to keep the swimmers progressing.

My son had the so called "water phobia" or fear of swimming and drowning until he met Debbie. Debbie was able to gain his confidence within the very first class. She made him to go inside of the pool with no floatation device on the first day and regained his trust with the water.

She also taught him how to get out of the pool in only three lessons. He has learned how to swim across the pool in less than five lessons. After ten classes, he has been able to do coordinated free style by himself, short distance treading water and go back-wards with help. He has been able to immerse inside of the water to pick up water toys from the floor of the pool with no difficulty. His kicks are strong and his endurance has increased progressively at every class.

Debbie's teaching skills are amazing. Furthermore, her personality is enchanting and especially to our little kids who need a more personal approach. She is always cheerful and encouraging. She enjoys her work and make sure that the client enjoys it too..

I strongly recommend her as a swimming instructor

Regards

Jolene Willemse.
